Dear Aaron Elgiar,

First and Foremost, we are writing this letter to say Thank you! Over the past several years we have been doing business with Sitech Louisiana and cannot say enough about your commitment to our growth, accuracy, performance, and productivity. The construction industry is constantly changing and adapting to new and better technology. As anyone can tell you it is a very competitive world out there and any advantages a company can gain will go a long way. For these reasons we choose to do business with Sitech Louisiana. Whether it's an application that requires layout, takeoffs, 3D Modeling, grading, paving, or milling Sitech Louisiana has always been there to help. We feel as though working with you we not only have a partner in the business but a company that we can look to as consultants. We have tried working with other technology vendors in the past and have not been satisfied with the results. As a company grows in technology a lot of support is required to ensure proper training, trouble shooting, and overall performance evaluation. Sitech Louisiana has been able to provide what we need in the most efficient manner time and time again. Their World Class Training, Sales, and Support are by far the best in the industry! Again I cannot say enough how important our partnership with Sitech Louisiana is.

Please feel free to reach out to us at anytime if you have any questions regarding the quality of work you will receive from Sitech Louisiana.

Kind regards

Steve Short/Jim Watts-Barriere Construction

A handwritten signature in black ink, appearing to be a stylized combination of 'S' and 'J' initials, followed by a large, sweeping flourish.

Sincerely,
Steve Short/Jim Watts
